## STAIRCASE SWIRL DIFFUSERS

IR, SDV, DSK

**TABLE OF CONTENTS**

|   |     |
|---|-----|
| Staircase swirl diffuser, type IR.....  | 213 |
| Staircase swirl diffuser, type SDV..... | 215 |
| Staircase swirl diffuser, type DSK..... | 218 |
| Staircase swirl diffuser, type DPV..... | 220 |

**STAIRCASE SWIRL DIFFUSER - IR**

- Staircase diffuser, for ventilation in areas that require high air induction, as well as low air flow velocities and noise levels.
- Made out of steel sheet, standard powder coated RAL 9010.

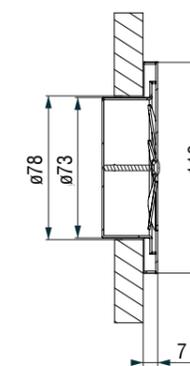

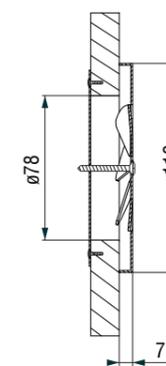

Options

- RAL...

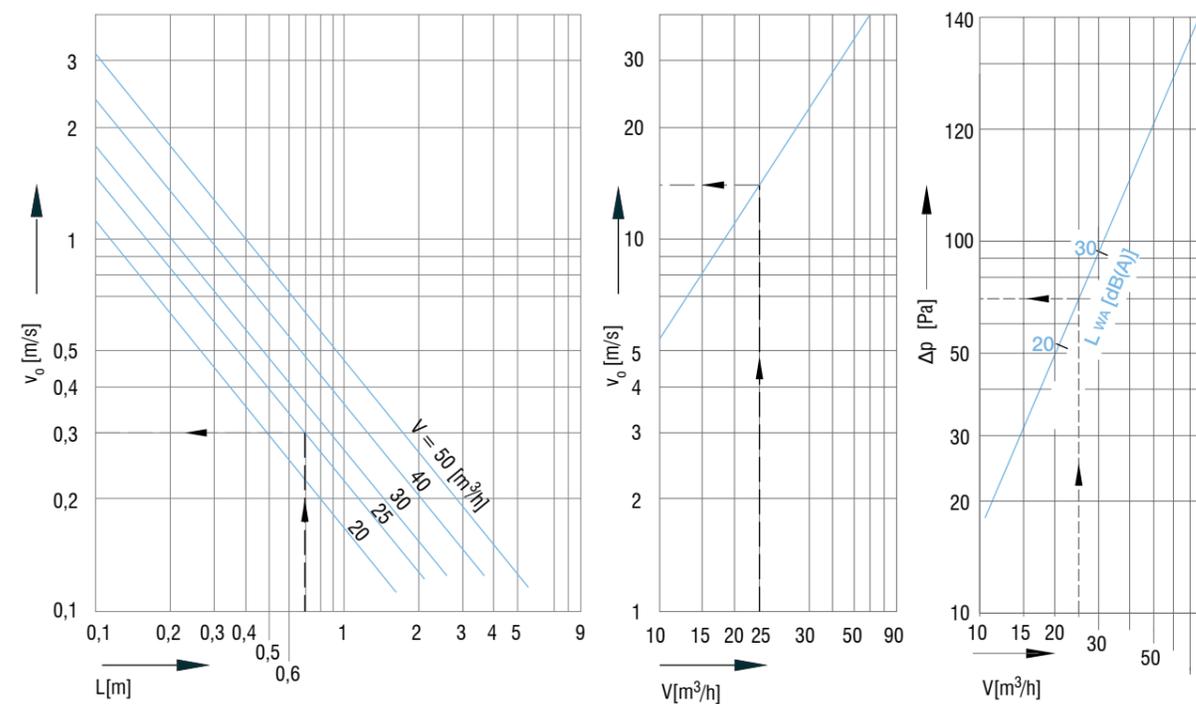

Installation

- with central screw and cross-member (standard)

- with plenum box

Selection diagram

Ordering key

Staircase swirl diffuser **IR - O - T - RAL...**  
**O** - round  
**K** - square  
 Connection : **K** - plenum box  
**T** - central screw and cross-member

Definition of symbols:

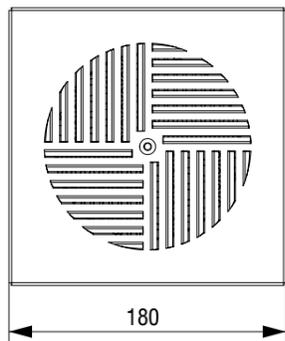

|                    |         |                             |              |      |                          |
|--------------------|---------|-----------------------------|--------------|------|--------------------------|
| $\dot{V}$          | [m³/h]  | - Air flow rate             | $\Delta p_t$ | [Pa] | - Pressure drop          |
| $v_k$              | [m/s]   | - Duct velocity             | $t_p$        | [°C] | - Room temperature       |
| $v_0$              | [m/s]   | - Effective outled velocity | $t_s$        | [°C] | - Supply air temperature |
| $v_L$              | [m/s]   | - Core velocity             | $\Delta t_z$ | [°C] | - ( $t_s - t_p$ )        |
| $L$                | [m]     | - Throw distance            |              |      |                          |
| $L_{WA}$           | [dB(A)] | - Sound power level         |              |      |                          |
| $\alpha = 6^\circ$ |         | - Dissipation angle         |              |      |                          |
| $B$                | [m]     | - Jet width                 |              |      |                          |

**STAIRCASE SWIRL DIFFUSER - SDV**

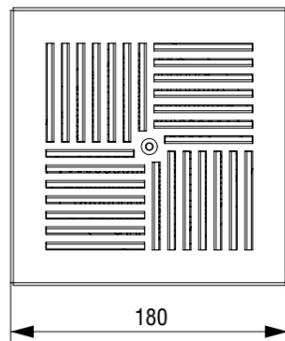

- Staircase diffuser, for ventilation in areas that require high air induction, as well as low air flow velocities and noise levels.
- Made out of steel sheet, standard powder coating RAL 9010.

**STAIRCASE SWIRL DIFFUSER - DSK**

- Used for air supply, where large throw and low noise is required.
- Vertical installation in stairs (not a loading surface)
- Front plate made out of anodized aluminium. Casing made out of galvanized steel sheet.
- Fixing with screws

| Dimension | L   | C  | A  |
|-----------|-----|----|----|
| DSK 2     | 200 | 63 | 74 |
| DSK 3     | 300 | 63 | 87 |
| DSK 4     | 400 | 71 | 86 |
| DSK 5     | 500 | 66 | 92 |
| DSK 6     | 500 | 65 | 74 |

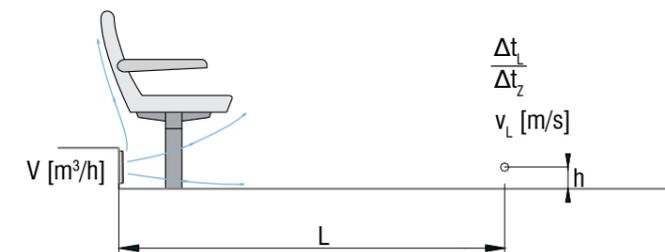

| Effective outlet area  |  |
|------------------------|--|
| No. of outlet elements | A <sub>ef</sub> [10 <sup>-6</sup> m <sup>2</sup> ] |
| 1                      | 631  |
| 2                      | 1262   |
| 3                      | 1893   |
| 4                      | 2524   |
| 5                      | 3155   |
| 6                      | 3786   |
